“ We have seen benefits as participants grow in confidence and influence other staff around them. As an employer I see this program as a definite win-win. ”

INJECT A POSITIVE CULTURE AND GET RESULTS FASTER

Average return on investment for this program is over \$300,000!

AIMS

The Leadership for Manufacturing Excellence Program is aimed at current and developing business leaders, middle managers and aspiring team leaders.

Covering the critical elements of Innovation, Lean, Leadership and Culture, the program provides a comprehensive skill set to develop the leadership capacity that is required to succeed in today's manufacturing environment.

Through a series of workshops, site visits, one to one coaching and peer learning, this program offers you a unique opportunity to:

- Enhance your leadership skills and personal impact
- Confidently lead teams through change
- Develop a culture of innovation and continual improvement
- Identify and lead the delivery of tangible business benefits

BENEFITS

During the program you can expect to:

- Develop your personal leadership goals to assist you to engage your team and achieve better results
- Learn and apply Lean concepts during interactive workshops
- Discover strategies to improve team culture
- Learn how to facilitate your own team to develop a performance culture in the workplace
- Learn the importance of innovation and how to incorporate into your daily role
- Identify, plan and lead a business improvement project incorporating lean methodologies and program learnings
- Build your network with like-minded people

PROGRAM HIGHLIGHTS

- 5 Workshops between April and November 2017, includes 2 onsite workshops
- Experienced and engaging workshop facilitators
- 2 Factory Tours: Carbon Nexus and Toyota Manufacturing
- 2 workplace coaching sessions
- Graduation Day: Presenting Improvement Projects
